

Stevie

2019

TAG: SPP834

FIRST SPOTTED

1 June

@1:00 pm

When a new turtle like Stevie shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify them easily each time they come back to nest and we can track their nesting history over many years.

the HISTORY of Stevie

Turtle #23

new at Sandy Point in 2019!

Stevie was a brand new turtle this year at Sandy Point. She was Turtle #23 of 24 for the 2019 season!

Size:

152.0 cm

About Stevie

Stevie was an unusual turtle - she decided to nest in the middle of the day on a beach on the south side of St. Croix. A community member called to let us know there was a turtle on the beach. We were able to meet up with her before she went back to the water!

Average # Eggs

70

in her clutches!

Adopted by Donni and Dave Benson for daughter Stevie!

Thank you!

The St. Croix Leatherback Project is partially supported by the 'Sea Turtle Census', a project of The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS. SeaTurtleCensus.com
